Software Update Renewal Card

The Software update Renewal Card is a new method to update the software of the X-431 diagnosis products made by Launch. With this cards, the customer can update his X-431 diagnosis tool easily and fast, and the Launch dealers can manage his sales of software update with more convenience and benefit.

It includes 12 digit numbers.

Scratch or scrap the designated area to reveal the hidden information. Generally it is composed of 24 digit numbers.

The Card number and Password can be obtained in the invoice or in the email.

If you have any questions about Launch Update Renewal Card, please call 1300 369 788 or email to info@launchtech.com.au
